1988 PIMA MAGAZINE INDEX

Arbitration

"Alcoholic papermaker sees the light just in time," Higginbotham, Susan, p. 4, Sept.

"Despite doctor's okay, firm refuses to reinstate employee", Higginbotham, Susan, p. 5, April.

"Driver stress leads to tragedy, termination," Higginbotham, Susan, p. 5, Dec.

"Employee needs new drug; mill nixes plea," Higginbotham, Susan, p. 5, July.

"Employees turn thumbs down on mandated quality classes," Higginbotham, Susan, p. 4, Oct.

"Liquid lunches cost these papermakers their jobs," Higginbotham, Susan, p. 3, May.

"Manager needles mill with new point system," Higginbotham, Susan, p. 6, March.

"Mill's ban on smoking lights up employees' ire," Higginbotham, Susan, p. 4, Nov.

"Papermaker loves his bottle; mill gives him the can," McCann, Colleen, p. 10, Jan.

"This hibernator gets a rude awakening," Higginbotham, Susan, p. 10, Feb.

"This pair gets in each other's hair," Higginbotham, Susan, p. 13, June.

Automation

"What managers think about millwide automation," Fadum, Ole, p. 45, Mar.

"Mill management's role in millwide automation," Routledge, Thomas C., p. 17, Oct.

Basis Weight Measurement

"Here are four steps to superior basis weight measurement and control," Dukes, John R., p. 41, Aug.

Boilers

"James River mill saves $500,000 with boiler upgrade program," p. 28, Aug.

Bowater Carolina Co.

"Bowater Carolina's modernized Catawba mill features rugged, state-of-the-art lighting," p. 33, Dec.

Bridging islands

"Bridging islands in the mill and the marketplace," p. 26, Dec.

Brightness

"A proven approach to fluorescent brightness measurement and control," Anderson, Kim A., p. 14, May.

Can Do! Club

"Leaf River's pulp dryer sets world speed record," p. 41, Mar.

"Asman saves MacMillan Bloedel $150,000 yearly in maintenance," p. 5, Oct.

Celanese Industrial Fibers

"Fibrets from Celanese touted as 'exceptional' binder," p. 35, Mar.

Champion International Corp.

"Champion unveils P-5, world's largest producer of uncoated bleached free-sheet," p. 19, Jan.

"Pensacola conversion brings mill into corporate mainstream," p. 28, Sept.

Coal

"Coal research lab evaluates feasibility of boiler changeovers," Day, John, p. 55, Mar.

Coils

"The role coils play in mill air systems," Kennon, Doug, p. 54, June.

Cost Optimization

"Cost optimization techniques can beef up your bottom line," Brown, Edward W., p. 24, Oct.

Dryers

"The dryer section: an overview," Chalmers, G. J., p. 45, June.

Effluent

"Anaerobic/aerobic "bugs" take big bite out of paper mill effluent," p. 42, Nov.

Engineering

"Pensacola conversion brings mill into corporate mainstream," p. 28, Sept.

Felt

"New top felt system at Port Hudson hikes daily production 9%," p. 14, Oct.

Forests

"The drought of '88 and our forest

"A proven approach to fluorescent brightness measurement and control," Anderson, Kim A., p. 14, May.

Can Do! Club

"Leaf River's pulp dryer sets world speed record," p. 41, Mar.

"Asman saves MacMillan Bloedel $150,000 yearly in maintenance," p. 5, Oct.

Celanese Industrial Fibers

"Fibrets from Celanese touted as 'exceptional' binder," p. 35, Mar.

Champion International Corp.

"Champion unveils P-5, world's largest producer of uncoated bleached free-sheet," p. 19, Jan.

"Pensacola conversion brings mill into corporate mainstream," p. 28, Sept.

Coal

"Coal research lab evaluates feasibility of boiler changeovers," Day, John, p. 55, Mar.

Coils

"The role coils play in mill air systems," Kennon, Doug, p. 54, June.

Cost Optimization

"Cost optimization techniques can beef up your bottom line," Brown, Edward W., p. 24, Oct.

Dryers

"The dryer section: an overview," Chalmers, G. J., p. 45, June.

Effluent

"Anaerobic/aerobic "bugs" take big bite out of paper mill effluent," p. 42, Nov.

Engineering

"Pensacola conversion brings mill into corporate mainstream," p. 28, Sept.

Felt

"New top felt system at Port Hudson hikes daily production 9%," p. 14, Oct.

Forests

"The drought of '88 and our forest

land," The American Forest Council, p. 10, Dec.

Forming Fabrics

"Evaluating synthetic forming fabric trials," Cappell, Daniel D., p. 30, June.

"How to maintain synthetic forming fabrics," Houfek, William E., p. 17, May.

Headboxes

"How headbox design affects PM performance and sheet structure," Ibraham, Ahmed A., p. 28, Jan.

Howard Paper

"Howard Paper upgrade enhances quality, consistency and communications," Rico, Rich, p. 23, Nov.

Installations

"Effectively managing machine installations and rebuilds," Wendt, Darryl, p. 44, Dec.

Interviews

"Dick Early: Howard Paper upgrade enhances quality, consistency and communications," Rico, Rich, p. 23, Nov.

"Paul Linsen: Bridging islands in the mill and the marketplace," p. 26, Dec.

"Ben Thorp: Thoughts on paper," Koepenick, Martin F., p. 29, Dec.

James River Corp.

"James River mill saves $500,000 with boiler upgrade program," p. 28, Aug.

Leaf River Forest Products, Inc.

"Leaf River's pulp dryer sets world speed record," p. 41, Mar.

Lighting

"Bowater Carolina's modernized Catawba mill features rugged, state-of-the-art lighting," p. 33, Dec.

Lubrication

"PM Oils: they're critical to reliable, efficient operation," p. 24, Jan.

Maintenance

"A program approach to felt and wire cleaning," Novotny, Raymond J., p. 25, Feb.

"Computerized maintenance management, Part I—Taking that BIG step in organizing your maintenance department," Bagadia, Kishan, p. 36, Aug.

"Computerized maintenance management, Part II—Deciding what you want your system to do," Bagadia, Kishan, p. 40, Sept.

"Computerized maintenance management, Part III—Justifying the cost to your boss," Bagadia, Kishan, p. 33, Oct.

"Computerized maintenance management, Part IV—Talking shop with software suppliers," Bagadia, Kishan, p. 45, Nov.

"Computerized maintenance management, Part V—Getting the new system up and running," Bagadia, Kishan, p. 46, Dec.

"Failures can't be eliminated, but maintenance costs can be minimized," Brown, Edward, p. 31, Mar.

"How to maintain synthetic forming fabrics," Houfek, William E., p. 17, May.

"Optimized pulp cleaning takes discipline, organization," Franko, Andrew, and Ronald Talbert, p. 29, Feb.

"The implications of pulp-cleaning system inefficiencies," Franko, Andrew, and Ronald Talbert, p. 15, April.

Management

"Improving shiftworker health and alertness," Connolly, John J., p. 38, June.

Mechanical Packing

"Buying packing? Read this first!" Ferland, R.H., p. 37, Dec.

Menasha Corp.

"Allen-Bradley sectional DC drive helps Menasha double PM No. 1's speed," Clark, Chuck F., and Robert V. Gulbranson, p. 35, Feb.

Millar Western Industries, Inc.

"How the Millar brothers put Whitecourt on the map," p. 34, Jan.

Motors

"Selecting the right motor takes research, savvy," Athon, Anastasia, p. 27, Nov.

"Reduce motor failure with comprehensive management program," Hollowood, Hugh, p. 30, Nov.

Nostalgia

"Papermaking of the past mixed courage, humor, ingenuity," Dolan, Syd, p. 25, July.

Paper Chemicals

"Paper Chemistry," a monthly column by Barbara Wortley, appeared from Jan. through Dec.

PCBs

"Retrofill process lets Scott eliminate hazards of PCB-laden transformers," p. 34, Nov.

Port Hudson

"New top felt system at Port Hudson hikes daily production 9%," p. 14, Oct.

Potlatch Corp.

"Vintage Potlatch PMs destined for new careers," p. 38, Nov.

Process Aids

"Fibrets from Celanese touted as 'exceptional' binder," p. 35, Mar.

Process Control

"SPC alone does not ensure consistent high quality," Daisley, Peter A., p. 18, Nov.

"SPQC: A total philosophy for quality," LaTorre, L. Donald, p. 31, Dec.

Production Economics

"Improving production economics via plant engineering decisions," Brown, Edward, p. 39, Feb.

"Failures can't be eliminated, but maintenance costs can be maximized," Brown, Edward, p. 31, Mar.

Recovery Boilers

"Acoustic leak detection—one answer to a need," Grace, Thomas M., p. 53, Dec.

"Explosions—they're still rocking the industry," Grace, Thomas M., p. 41, Oct.

"Gasification: Route to the promised land?" Grace, Thomas M., p. 75, June.

"Instrumentation provides timely recovery boiler data," Grace, Thomas M., p. 55, Aug.

"Managing recovery boiler ultrasonic thickness surveys with microcomputers," Druckrey, John, p. 24, April.

"New knowledge: The role of DOE projects," Grace, Thomas M., p. 55, Feb.

Repap Enterprises

"Repap builds world's largest coated free-sheet mill at Midtec," p. 63, June.

Rolls

"What's new in balancing methods for chilled cast iron rolls," Rothenbacher, Peter, p. 32, April.

"Anatomy of a roll-tracking system," Magnani, Anna, p. 23, Sept.

Rope Systems

"What you should know about rope systems and automatic transfers,: Diltz, Jack, p. 21, May.

Safety

"Managing safety means focusing on behavior," Krause, Thomas R., Dennis Schorr and John H. Hidley, p. 45, Feb.

SARA Title III

"Are you prepared for the news media reaction to your SARA Title III report?" Patterson, Bill, p. 40, Dec.

Scott Paper Co.

"Retrofill process lets Scott eliminate hazards of PCB-laden transformers," p. 34, Nov.

Shock Pulse Measurement

"Shock pulse measurement saves millions for Swedish paper mills," Nystrom, Robert, p. 22, Mar.

Sizing

"Trends in second generation AKD sizing," Watson, L.F., p. 36, Sept.

Size Presses

"Alternatives to the size press," Klass, Charles P., p. 19, Sept.

"Size presses offer problems, promises," Klass, Charles P., p. 24, Aug.

Starches

"Quality starches yield top performance in papermaking systems," Surface, Thomas G., p. 38, Aug.

Storage

"Modular storage saves space, hikes efficiency," p. 22, July.
continued on page 55

INDEX continued from page 52

Temple-Inland Corp.

"Training program offers mill-intensive curriculum," Elmore, Carolyn C., p. 22, Dec.

Management/Training

"Better decision-making means getting employees more involved," Beary, Rodney P., p. 8, Jan.

"Cost control check-up," Beary, Rodney P., p. 8, Sept.

"Five steps to better time management," Beary, Rodney P., p. 5, May.

"Gripers are a headache, but they can be useful, too," Beary, Rodney, P., p. 8, June

"How to apply analytical problem-solving techniques in your paper mill," Beary, Rodney P., p. 8, July.

"Inter-departmental problem-solving teams," Beary, Rodney P., p. 5, Nov.

"Smooth transitions critical to managing new ventures," Gordon, Ilene S., p. 22, Feb.

"Training program offers mill-intensive curriculum," Elmore, Carolyn C., p. 22, Dec.

"What's wrong with your meetings?" Beary, Rodney P., p. 8, Dec.

Valmet Automation Group

"Valmet Automation re-aligns North American operation," p. 50, Feb.

Vibration

"How to conduct predictive machinery vibration programs," Miller, James Sr., and James Miller Jr., p. 34, July.

Wet End

"Taking a real-time look at the wet end," Stein, Wilfred, and Frank Marascia, p. 19, July.

Winders

"Efficient winder technology for two-drum winders: Part I," Kaipf, Walter, p. 27, Mar.

"Efficient winder technology for two-drum winders: Part II," Kaipf, Walter, p. 27, April.

Wrapping/Handling

"Wrapping/Handling," Lacroix, Robert, p. 32, Sept.

1989 Winter/Spring Seminar Schedule

SEMINAR/WORKSHOP	DATE	LOCATION
Analytical Problem Solving/ Decision Making	March 8-10	Chicago, IL
Skills of Supervision/Phase I: Motivational Leadership/The First Line Supervisor	February 9-10	Jacksonville, FL
	February 21-22	Portland, OR
	February 23-24	Seattle, WA
	March 2-3	Mobile, AL
	March 13-14	Kalamazoo, MI
	April 6-7	Portland, ME
	April 10-11	Green Bay, WI
	April 20-21	Albany, NY
	April 27-28	Shreveport, LA
